
Our Story

The Peterson Farms family tree goes back 13 generations, with continuous farming through each one. Our forefathers immigrated from Holland in the 1600s, initially farming Manhattan Island in New York.

The founder of our current farm operation was one of seven sons who operated the Seven Sons Dairy, delivering fresh milk to central Kentucky families in the 1940s and 50s.

We proudly and humbly acknowledge the giants on whose shoulders we stand today by branding our CBD products with the name **“7 Sons”**.

About 7 Sons

7 Sons offers premium CBD products crafted with care using hemp grown exclusively at Peterson Farms. Our products are made with natural and organic ingredients and are free from harmful chemicals. We prioritize quality and transparency to bring you the best in CBD wellness.
